Public Records Request and Records Management Policy (Draft)

**Adopted by the SRTC Board of Directors
Month, Date 2026**

Regional Transportation Decisions Start Here

The Spokane Regional Transportation Council (SRTC) is the lead agency for coordinating transportation planning activities in the Spokane region. SRTC serves as the Metropolitan Planning Organization (MPO) for the region and is responsible for ensuring compliance with federal transportation planning requirements. Since the Spokane Metropolitan Planning Area has a population of over 200,000, SRTC is also designated as a Transportation Management Area (TMA), which entails additional responsibilities and discretion in allocating certain federal transportation funds within the urbanized area. Finally, SRTC serves as the state-designated Regional Transportation Planning Organization (RTPO) for Spokane County. RTPOs are voluntary associations of local governments, authorized under the 1990 Washington State Growth Management Act, to coordinate transportation plans at the local and regional levels.

As both the MPO and RTPO, SRTC is subject to the Washington State Public Records Act (Chapter 42.56 RCW), state records retention requirements under Chapter 40.14 RCW, and applicable federal recordkeeping and disclosure requirements associated with federal awards. SRTC shall manage, retain, and disclose public records in accordance with these laws and adopted agency policy.

SECTION 1: PURPOSE

1.1 Purpose

The Spokane Regional Transportation Council (SRTC) is committed to transparency, accountability, and responsible records management. Public records are essential to maintaining public trust, and SRTC strives to provide timely and reasonable access to those records while protecting information exempt from disclosure.

This policy explains how SRTC responds to public records requests and how records are created, maintained, retained, and disposed. It is intended to be practical, easy to follow, and useful for both staff and the public. This policy is not intended to supersede or replace any provision of Ch. 42.56 RCW.

1.2 Public Records Officer Contact Information

SRTC designates a Public Records Officer (PRO) to serve as the primary point of contact for all public records requests. The PRO is responsible for coordinating responses, communicating with requestors, and ensuring compliance with applicable requirements.

While the PRO manages the process, all staff share responsibility for identifying and providing records that may be responsive to a request.

The Public Records Officer for the Spokane Regional Transportation Council can be contacted at:

Public Records Officer
421 W Riverside Ave, Suite 500
Spokane, WA 99201-3613
Phone: 509-343-6370

SECTION 2: PROCEDURES

2.1 Requesting Public Records

Members of the public may request records in writing, by email, in person, or by phone.

To help SRTC respond efficiently, requests should include:

- The requestor's name and contact information (a name is not required)
- A description of the records being requested
- Whether the requestor would like to view the records or receive copies

If a request is unclear, SRTC may ask for clarification before proceeding.

A Public Records Request form (**Appendix A**) is available from the Public Records Officer or may be obtained directly at SRTC's website at www.srtc.org. While use of the form is encouraged, it is not required. Submitting a written request helps SRTC ensure that the requestor receives the records sought, that any exemptions are properly

applied, and that any applicable copying charges are accurately calculated. SRTC staff are available to help document your request. Refusal to submit a written request may delay processing if additional clarification is needed.

2.2 Responding to Public Records Requests

SRTC will respond to a public records request within five business days. The initial response will include one or more of the following:

- Providing the requested records or a link to the records
- Acknowledging receipt and giving an estimated timeline for fulfillment of the request
- Requesting clarification
- Denying the request in whole or in part

Some requests require additional time due to volume, complexity, and/or the need to review records for exemptions. In those cases, SRTC will communicate updates and may provide records in installments.

If a requestor does not respond to requests for clarification, fails to claim or submit payment for records, or fails to inspect available records within thirty days of a request or notification by SRTC, SRTC is entitled to close the request.

2.3 Redactions and Denials

SRTC will disclose public records unless a specific exemption applies. When a record contains both exempt and nonexempt information, only the exempt portion will be redacted.

If a request is denied, in whole or in part, SRTC will provide a written response that includes the legal basis for withholding the record and/or denying the request.

2.4 Access and Delivery of Records

Public records are available for inspection during normal business hours or may be provided electronically when feasible. Records are generally provided in the format in which they are maintained.

To protect the integrity of records:

- Original records will not be removed from SRTC custody
- Inspection will occur at the SRTC office or through approved electronic access

SRTC will provide reasonable accommodations for individuals with disabilities and will take reasonable steps to assist individuals with limited English proficiency.

2.5 Fees

SRTC may charge fees for the cost of providing copies of records, as set forth in the fee schedule below. Whenever possible, records will be provided electronically to reduce costs. The full fee schedule is available on the SRTC website.

If fees are charged, SRTC will use the rates established in the Washington Public Records Act (RCW 42.56.120, as amended), which apply when an agency does not calculate its own actual costs. At the time of approval of this policy, the rates are:

- \$0.15 per page for paper copies
- \$0.10 per page for scanned documents
- \$0.05 for every 4 electronic files or attachments uploaded
- \$0.10 per gigabyte for electronic transmission of records
- Actual cost of any digital storage device (e.g., USB drive)
- Actual cost of postage or shipping

Should fees allowed pursuant to RCW 42.56.120 be modified, this policy shall adopt the fees set forth in that provision and that provision shall supersede any fee set forth herein.

SRTC will use the most cost-efficient method available and does not charge for records already available on its website unless copies are specifically requested. SRTC also does not charge for inspecting public records or for the time spent searching for, reviewing, or redacting records.

For larger requests, SRTC may provide a cost estimate, require a deposit of up to 10%, and provide records in installments with payment due before each release.

As an alternative to the fee schedule herein, SRTC may charge a flat fee of up to \$2 for small requests, rather than itemized costs, and may waive fees when appropriate.

In limited cases, SRTC may apply a customized service charge for requests requiring advanced data compilation or specialized electronic formatting. If so, SRTC will notify the requestor in advance, explain the charge, and provide an estimate.

2.6 Closing Requests

A request is considered complete when SRTC has provided all responsive, nonexempt records and notified the requestor.

A request may also be closed if:

- The requestor withdraws the request
- The requestor does not respond to clarification request within 30 days
- Required payment or inspection does not occur within the time specified by SRTC

SRTC will send the requestor a closing letter, which will identify the basis for SRTC's closure of the request, and notify the requestor of the applicable statute of limitations, and provide the requestor with a reasonable time to ask follow up questions, as applicable.

2.7 Records Holds

When SRTC becomes aware of a public records request, litigation, audit, or investigation, any related records must be preserved.

During a records hold:

- Relevant records must not be deleted or altered
- Staff will be notified by the PRO when the hold is in place and when it is lifted

2.8 Review of Denials

A requestor may seek review of a denial or redaction by submitting a written request to the Public Records Officer.

The Executive Director, or Public Records Officer, will review the denial or redaction and provide a written determination within a reasonable timeframe. This process does not limit the requestor's right to seek judicial review.

SECTION 3: RECORDS MANAGEMENT

3.1 Purpose

SRTC maintains records in accordance with state and federal requirements.

All staff are responsible for properly storing and retaining records they create or receive.

Records may exist in many formats, including email, documents, databases, maps, and audio or video recordings, and must be managed consistently.

Staff are expected to:

- Save records in approved SRTC systems, not on personal devices or accounts
- Maintain records in an organized and accessible manner
- Follow applicable retention schedules
- Avoid deleting records unless authorized
- Respond and provide records within a reasonable time to requests made by the PRO

3.2 Retention and Destruction

Records must be retained in accordance with the applicable retention schedules issued by the Washington State Archives and any applicable federal requirements.

Records may only be destroyed when:

- The required retention period has been met, and
- The records are not subject to a public records request, audit, litigation, or other hold

Destruction must be conducted securely and documented as required.

3.3 Transferring to the WA Archives

Certain records may be designated as archival and required to be transferred to the Washington State Archives after their retention period has been met.

The Public Records Officer is responsible for coordinating the transfer of records that have met their archival designation. This includes working with the Archives to ensure records are prepared, documented, and transferred in accordance with applicable requirements.

Staff may be asked to assist in identifying and preparing records for transfer. Records identified for archival transfer must not be destroyed.
