THE CONSTRUCTION ASSOCIATION

Welcome to the Regional Transportation Summit! This annual event unites community leaders to discuss key transportation topics and to collaborate on shared goals. The event is hosted by the Spokane Regional Transportation Council (SRTC) in partnership with local Chambers of Commerce and the Good Roads Association. We're excited to work together for a brighter future for our region. Thank you for joining us!

— **Lois Bollenback, SRTC Executive Director**

2024 SUMMIT SPEAKERS

Randy Iwasaki

Randy Iwasaki is an accomplished speaker, executive, and now founder of his own firm, Iwasaki Consulting Services – providing strategic advice and technical innovative solutions to founders, entrepreneurs, and C-level executives with a focus on transportation technology and organizational growth. With extensive experience navigating the challenges that face both public and private organizations, Randy is able to guide his clients towards successful outcomes.

Abby Morgan

Abby leads the Emerging Technology practice for Kittelson & Associates. She helps state and local agencies across the country plan for the impacts of connected, automated, and electric vehicles. Abby is currently leading the Smart Mobility Plan for the Spokane region, and she is writing a national guidebook on how agencies that own and operate roadway transportation infrastructure can prepare for automated vehicles.

Daniel Lai

Daniel is City of Bellevue's Smart Mobility Manager and has over 15 years of specialty experience in designing, operating, and managing transportation systems in the private and public sector. At the City of Bellevue, Daniel oversees the Smart Mobility Program and supports the Transportation Department by providing innovative solutions to solve many complex transportation challenges. Daniel manages Bellevue's citywide SCATS adaptive signal control system and oversees the city's technology portfolio of transportation projects.

Notes:
